

nursemate® 100 with Immu-PRIME

nursemate® 100 with Immu-PRIME is a high quality colostrum replacer in an easy mix powder which delivers critical nutrients to your calves. nursemate® 100 with Immu-PRIME is a single dose replacement which provides calves a healthy alternative when maternal colostrum is low quality or unavailable. The Immu-PRIME in nursemate® 100 colostrum replacer improves colostrum absorption and maternal programming of the calf while at the same time activating the cells of the newborn for protection from disease.

**Easy Mix
Formula**

nursemate® 100 with Immu-PRIME replacer is made from bovine colostrum collected from high quality dairy cows in the USA. Sterling Technology tests and guarantees level of 100 gm of bovine globulin protein per dose.

INGREDIENTS: Bovine colostrum, activated immune factors and growth factors from bovine colostrum (Immu-PRIME).

STORAGE: To maintain maximum potency, store in cool, dry location out of direct sunlight.

APPLICATIONS: Health benefits have been shown by feeding acertified pasteurized colostrum powder that delivers adequate amounts of asorbable antibody (IgG) to calves as a replacement for maternal colostrum.

DIRECTIONS: Mix entire package with 1-2 quarts of warm water. Administer entire mixture as soon after birth as possible via nipple pail, bottle or esophagael feeder.
